Ivan Burlakov

Senior Software Developer | C# / .NET

+49 1520 2731908 • iburlakov@gmail.com
linkedin.com/in/iburlakov
Frankfurt am Main, Germany
Permanent Residence Permit (Niederlassungserlaubnis)

Senior Software Developer with 20+ years of experience building and scaling SaaS platforms, specializing in C#, .NET and ASP.NET Core for backend services, REST APIs and enterprise web and desktop applications. Experienced in working within international Agile teams, delivering solutions for companies in the USA, the UK and Germany, including Syncplicity, FilmTrack and Frisbii (formerly billwerk+). Strong background in microservices, serverless and event-driven architecture on AWS, cloud migrations and performance optimization. Currently leading an engineering team on subscription billing, invoicing and accounting systems, combining hands-on development with architecture, code review and AI-assisted development workflows.

SKILLS

- **Backend Development:** C#, .NET, .NET Core, ASP.NET Core, ASP.NET MVC, Entity Framework / EF Core, REST APIs
- **Architecture:** Microservices, Event-driven Architecture, Clean Architecture, SOLID, Domain-Driven Design (DDD)
- **Cloud (AWS):** Serverless, AWS Lambda, API Gateway, SQS, SNS, EventBridge, EC2, Cloud Migration to AWS
- **Databases:** Microsoft SQL Server (T-SQL), PostgreSQL, MySQL, MongoDB, Amazon DynamoDB, Redis, SQLite
- **Desktop Development:** WPF, WinForms, Mono, Xamarin, Objective-C (Windows and macOS clients)
- **Frontend & Other Languages:** Angular, AngularJS, TypeScript, JavaScript, jQuery, Java, Kotlin, Node.js, C
- **Testing & Quality:** Unit Testing (xUnit, NUnit, MSTest), Load & Stress Testing, Performance Tuning, Code Review
- **DevOps & Tools:** Git, Docker, CI/CD Pipelines, Visual Studio, JetBrains Rider
- **Methodologies & Leadership:** Agile, Scrum, Kanban, Team Leadership, Mentoring, Requirements Analysis, Estimation & Planning, AI-Assisted Development
- **Domain Expertise:** SaaS, Subscription Billing, Recurring Payments, Invoicing, E-Invoicing, GoBD Compliance, Accounting Integrations, Salesforce Integration, Enterprise File Sharing, E-Commerce

LANGUAGES

English - C1 (advanced) | German - B1 (intermediate) | Russian - C2 (native)

EXPERIENCE

Frisbii, Frankfurt am Main, Germany — 08/2022 – Present

Subscription billing and recurring payments SaaS platform (formerly billwerk+) — Full-time

Engineering Team Lead — 02/2026 – Present

- Leading a cross-functional team building a subscription billing and recurring revenue platform, combining hands-on development with people leadership: mentoring, regular 1:1s and domain guidance.
- Planning and shaping requirements with Product and working with the team on the architecture of a new service; reporting on delivery, risks and technical direction.
- Leading AI adoption in the team by introducing AI-assisted development workflows for coding, code review and testing into daily engineering practice.

Software Developer → Senior Software Developer — 08/2022 – 02/2026

- Core developer on the invoicing and accounting domains of the SaaS platform, working across the stack with C#, .NET Core, ASP.NET Core and MongoDB, as well as Java/Kotlin, PostgreSQL, Angular and AWS.
- Built and maintained the invoicing subsystem end to end: invoice generation, PDF rendering, e-invoicing and GoBD-compliant archiving.
- Developed the accounting subsystem that exports financial data to third-party accounting tools, internal systems and in-product reporting.
- Delivered internal projects integrating Salesforce and AWS services (SQS, DynamoDB, EC2); implemented contract management improvements and contributed to platform security enhancements.

Distillery, USA (Hybrid) — 06/2009 – 06/2022

Software development company, HQ in Los Angeles — Full-time

Software Developer (2009) → Senior Software Developer (2011) → Development Team Lead (2022)

Long-term client engagements in international Agile teams across the full SDLC, leading several projects.

Project 1: FilmTrack - rights and royalties management SaaS for entertainment (USA, remote) 04/2020 – 06/2022

- As Development Team Lead, led a team of 5 developers modernizing a business-critical subsystem with cloud-native AWS solutions and managed its migration to AWS infrastructure.
- Conducted load and stress testing to ensure scalability and maintained the legacy instance management subsystem.
- Refactored the audit logging subsystem and implemented system-wide changes from the database (T-SQL) to the Angular UI using .NET Core and ASP.NET Core, collaborating closely with other teams.

Project 2: Syncplicity - enterprise file sharing and collaboration platform (USA, remote) 09/2010 – 04/2020

- Developed and maintained the website, REST API services and desktop clients for Windows and macOS using C#, ASP.NET, WPF, WinForms, Mono/Xamarin, Objective-C and Microsoft SQL Server.
- Delivered performance optimizations and bug fixes while ensuring backward compatibility for enterprise customers; integrated third-party low-level components and maintained legacy code.
- Designed and developed a Slack integration plugin using a serverless architecture on AWS (Lambda, API Gateway).
- Actively participated in code reviews and maintained high unit test coverage.

Project 3: Check4 - job search platform (UK, remote) 09/2009 – 09/2010

- Led the development of a mass CV ingestion tool and maintained the ASP.NET website using C#, WinForms and XML.
- Optimized website performance, including SQL performance tuning, and collaborated closely with the client's development team to ensure alignment and smooth delivery.

Oggetto — 09/2008 – 06/2009

Software development company — Full-time

.NET Developer

- Led the development of an e-commerce platform for vehicle spare parts on a .NET-based engine (ASP.NET, Microsoft SQL Server), from design through long-term maintenance, including database query optimization.

Deimand LLC — 11/2005 – 09/2008

Software engineering company

Software Developer

- Developed mobile applications, a video streaming system and other web and desktop applications using C#, ASP.NET, WinForms, C, jQuery and Microsoft SQL Server.
- Led a small development team, gathered and analyzed requirements and supported estimation and planning.

EDUCATION

Southern Federal University (formerly Rostov State University), Russia — 2006

Engineer's Degree in Computer Science, Information Security (with honors)

5-year program, equivalent to a combined Bachelor's and Master's degree

---

CERTIFICATIONS

- **Microsoft:** Microsoft Certified Professional (MCP), 2012
- **MongoDB:** M001 Basics, M121 Aggregation Framework, M201 Performance, M320 Data Modeling, 2022–2023
